Well-Child Care and Immunizations
Well-child examinations are scheduled at recommended ages to support your child's health and development. Immunizations are an important part of preventive care. The schedule below outlines the timing of routine examinations and the immunizations typically provided at each visit.

What to Expect at Each Well-Child Examination
At each visit, your child's healthcare provider will:
• Monitor growth and weight
• Evaluate developmental progress
• Perform a complete physical examination

AGE	Immunizations/Screening Tests
Birth (in hospital)	Hearing screen, congenital cardiac screen, newborn blood screen, Hep B vaccine
1st 1-2 weeks	Post Hospital exam, weight check, bilirubin check
4 weeks *	Review of screening tests, Hep B vaccine
2 month	Pentacel, Pneumococcal, Rotateq (oral) vaccines
4 months	Pentacel, Pneumococcal, Rotateq (oral) vaccines
6 months	Pentacel, Pneumococcal, Rotateq (oral) vaccines
9 months	Hearing screen, Dental varnish; Hep B vaccine
12 months*	CBC, Lead screen, Dental varnish; Pneumococcal, MMR, Varicella vaccines
15 months	Dental varnish; Pentacel, Hep A vaccines
2 years	CBC, lead screen, dental varnish; Hep A vaccine
3 years	Vision and hearing screen, dental varnish
4 years*	Vision and hearing screen, CBC, urinalysis; Kinrix/Quadracel, ProQuad vaccines
5 years	Vision and hearing screen, CBC, urinalysis
<u>*The 4 weeks, 12 months and 4 years exams should NOT be done before those birthdays.</u>	
6-8 years	Vision and hearing screen, CBC, urinalysis
9-11 years	Vision and hearing screen, CBC, urinalysis, lipid profile; HPV (Gardasil)
11-12 years	Vision and hearing screen, CBC, urinalysis; Tdap, Menquadfi, HPV vaccines
12 and up	Vision and hearing screen, CBC, urinalysis
16-18 years	Menquadfi, Bexsero vaccines

Combination Vaccines:

Pentacel	DTaP, IPV, Hib
ProQuad	MMR, Varicella
Kinrix/Quadracel	DTaP, IPV

Abbreviations used:

DTaP	Diphtheria, Tetanus, acellular Pertussis (whooping cough)
CBC	Complete blood count
Hep A	Hepatitis A vaccine
Hep B	Hepatitis B vaccine
Hib	Hemophilus influenzae, type b vaccine
HPV	Human papilloma virus vaccine
IPV	Inactivated polio vaccine
MMR	Measles, mumps and rubella vaccine
Tdap	Tetanus, diphtheria, and pertussis vaccine
Menquadfi	Meningococcal ACWY
Bexsero	Meningococcal B
